Porte, Boiserie & Partizioni

Doors, Wall Paneling & Partitions

BARAUSSE

Barausse sviluppa e produce **sistemi di chiusura** e di **separazione degli spazi, rivestimenti parete** in legno e pareti attrezzate concepiti per sublimare la vivibilità degli ambienti. I prodotti Barausse sono il risultato della sapiente tradizione artigianale nella lavorazione del legno combinata con le competenze tecniche e un approccio propositivo e attento al contesto.

Barausse develops and manufactures **closing systems, wall wooden paneling** and equipped walls designed to make the living environment sublime. Barausse products are the result of a strong handcrafted tradition in woodworking combined with technical skills and a proactive approach.

BARAUSSE

La nostra Mission

Plasmare un design che nobilita la funzionalità, porre le conoscenze e l'esperienza della nostra squadra al servizio del bello: perseguiamo l'imprescindibile obiettivo di creare un sistema di prodotti che migliora la qualità dell'abitare e aumenta il valore del progetto.

Our Mission

Sculpting a design that enhances the functionality, applying the knowledge and experience of our team to pursue beauty: we seek the unquestionable aim of creating a system of products that improves the quality of living and enhances the value of the project.

Secret

Minimalismo filomuro | Minimalism of flush doors

L'espressione più raffinata dell'anta complanare: una soluzione di apertura contemporanea, progettata per integrarsi in modo impeccabile e discreto nel sistema parete. Priva di coprifili e dotata di cerniere invisibili, rappresenta l'equilibrio ideale tra minimalismo architettonico e precisione tecnica. Grazie alla massima flessibilità progettuale, l'anta è completamente personalizzabile sia nelle dimensioni che nelle finiture. A completamento del sistema filomuro, proponiamo soluzioni telaio brevettate che garantiscono un'installazione perfetta, valorizzando l'integrazione con le superfici circostanti. Disponibile anche in versioni ad alte prestazioni di isolamento acustico e resistenza al fuoco.

The most refined expression of the flush door concept: a contemporary opening solution designed to integrate seamlessly and discreetly into the wall system. Free from visible trims and equipped with concealed hinges, it achieves the ideal balance between architectural minimalism and engineering precision. Offering maximum design flexibility, the door is fully customizable in both dimensions and finishes. To complement the flush-wall concept, we provide patented frame solutions that ensure a flawless installation and elevate the integration with surrounding surfaces. Also available in high-performance variants featuring acoustic insulation and fire resistance.

Glass & Partitions

Porte e partizioni vetro | Glass doors and partitions

Sottili profili in alluminio, ampie superfici trasparenti: le porte in vetro sono dedicate a chi ama gli spazi luminosi e aperti. Le maniglie perfettamente integrate nel design dell'anta consentono di mantenere la stessa estetica nelle diverse tipologie di apertura. La ricerca dell'essenziale e la cura del dettaglio trovano espressione in questa collezione progettata per avere la massima libertà compositiva. Plasmiamo l'alluminio per dare vita ad una nuova poetica degli spazi: scelto per la sua resistenza ed eleganza, viene modellato per ospitare il vetro di sicurezza e assicurare un design minimale e sofisticato.

Thin aluminum profiles and wide transparent surfaces: the glass and aluminum door collection is dedicated to those who love bright and open spaces. Thanks to the handles perfectly integrated into the door design, the same models are available in the different opening options. The search for understatement and an attention to detail find expression in this collection designed to ensure utmost compositional freedom. We shape aluminum to give life to a new poetics of space: chosen for its resistance and elegance, the metal is modelled to house the safety glass and ensure a minimalist, sophisticated design.

Continuity

Porte e Sistemi integrati | Integrated Doors & Systems

Continuity è il sistema di integrazione Barausse per la creazione di spazi unici ed eleganti. Realizzato in maniera squisitamente sartoriale, il sistema integra le diverse soluzioni di chiusura con rivestimenti boiserie ed elementi di arredo. In questo *unicum* di ampio respiro e versatilità, si conferisce agli spazi abitativi coerenza estetica e funzionalità. La combinazione di elementi diversi, nella medesima finitura, esalta la percezione dello spazio diffondendo sensazioni di armonia e benessere: perseguiamo l'obiettivo di creare un sistema di prodotti che migliora la qualità dell'abitare e aumenta il valore del progetto.

Continuity is Barausse's integration system for creating unique and elegant spaces. Tailored with exquisite craftsmanship, the system combines various closure solutions with wall paneling and furnishing elements. In this unified expression of breadth and versatility, living spaces gain both aesthetic coherence and functional value. The combination of different elements in the same finish enhances spatial perception, conveying a sense of harmony and well-being: we aim of creating a system of products that improves the quality of living and enhances the value of the project.

Baraussesphere

Sinfonia multimateriale | Multimaterial Symphony

Baraussesphere è una sinfonia di materiali pregiati — legni raffinati, marmo, metallo e pelle — lavorati da sapienti artigiani italiani e combinati assieme in porte, partizioni e boiserie che diventano creazioni poetiche, dove estetica e design si fondono in un equilibrio armonico. Un incubatore di visioni stilistiche che sfidano le convenzioni, trasformando l'ordinario in straordinario con gusto ed emozione.

Baraussesphere is a symphony of fine materials — refined woods, marble, metal, and leather — expertly crafted by skilled Italian artisans and combined into doors, partitions, and wall paneling that become poetic creations, where aesthetics and design blend in perfect harmony. An incubator of stylistic visions that challenge conventions, turning the ordinary into the extraordinary with taste and emotion.

Metalsphere

L'eleganza dei metalli | The Elegance of Metals

DE CASTELLI

Porte e sistemi di partizione, completamente o parzialmente rivestiti con lamine metalliche sapientemente lavorate secondo la precisione artigianale di De Castelli. Il calore della materia conferisce ad acciaio, ottone e rame un ruolo da protagonisti nel progetto d'arredo. Un connubio tra creatività e funzionalità che eleva gli spazi, grazie a prodotti affidabili e di una bellezza senza tempo.

Doors and partition systems, fully or partially covered with metal sheets expertly crafted with De Castelli's artisan precision. The warmth of the materials brings steel, brass, and copper to the forefront as key elements in the design. A blend of creativity and functionality that elevates spaces with reliable products of timeless beauty.

Contemporary

Porte con telaio a vista | Doors with exposed frame

Porte in legno dal design curato, incastonate armoniosamente in telai a vista. Ogni porta è realizzata su misura, raggiungendo altezze fino a 4 metri. La qualità dei materiali e degli accessori garantisce prestazioni elevate di comfort acustico e lo rendono un prodotto duraturo nel tempo. Che si tratti di arredare una residenza o ridefinire spazi ricettivi, le porte Barausse rappresentano la quintessenza del moderno. Il fascino delle linee pulite, dei materiali pregiati e del design innovativo elevano l'ambiente interno e lo vestono di raffinatezza.

Wooden doors with a refined design, harmoniously set within visible frames. Each door is custom-made, reaching heights of up to 4 meters. The quality of materials and hardware ensures high acoustic comfort performance, making it a durable product over time. Whether furnishing a residence or redefining hospitality spaces, Barausse doors represent the quintessence of modern design. The allure of clean lines, premium materials, and innovative design elevates interior environments, dressing them in elegance.

Carven

Manifesto sperimentale | Experimental manifesto

Carven è il risultato di un'indagine sulle potenzialità nascoste della materia. Un percorso che reinterpreta l'antica arte dell'intaglio, combinandola con tecnologie innovative e approcci contemporanei. Il legno prende vita attraverso forme che emergono in maniera unica, ma sempre riconoscibili. L'abrasione crea effetti inediti, disegnando texture e motivi che si intrecciano con la fibra del legno, mentre la laccatura, applicata in sinergia, esalta la bellezza e la complessità della materia, conferendo profondità e carattere alle superfici. Carven si plasma con naturale eleganza in porte e boiserie, reinventando ogni spazio con un tocco di sofisticata unicità.

Carven is the result of an investigation into the hidden potential of materials. A journey that reinterprets the ancient art of carving, blending it with innovative technologies and contemporary approaches. Wood comes to life through shapes that emerge uniquely, yet always recognizable. Abrasion creates unprecedented effects, drawing textures and patterns that intertwine with the wood's grain, while lacquer, applied in harmony, enhances the beauty and complexity of the material, adding depth and character to the surfaces. Carven molds with natural elegance into doors and paneling, reinventing every space with a touch of sophisticated uniqueness.

Cerchiamo l'obiettivo indiscutibile di creare un sistema di prodotti che migliori la qualità della vita e accresca il valore del progetto.
— Una filosofia che chiamiamo **The Culture of Project**

We seek the unquestionable aim of creating a system of products that improves the quality of living and enhances the value of the project.
— We call this **The Culture of Project**

Contractors & Developers

Partnership a 6 fasi | 6-Step partnership

1. Analisi del progetto e dei requisiti
Un team specializzato gestisce soluzioni contract su misura, guidato da estetica, funzionalità, durabilità, budget e normative.

Project and Requirements Analysis
A dedicated team delivers tailored contract solutions, guided by aesthetics, functionality, durability, budget, and regulatory compliance.

2. Ingegnerizzazione & Shop drawings
Il team R&D traduce ogni idea in soluzioni tecniche di alta qualità, fornendo disegni esecutivi, file BIM e istruzioni per l'integrazione a progetto.

Engineering & Shop drawings
Our R&D team transforms ideas into high-quality technical solutions, delivering shop drawings, BIM files, and integration guidelines.

3. Scelta accurata dell'imballo
Oltre trent'anni di esperienza garantiscono imballaggi resistenti e ottimizzazione degli spazi per spedizioni in tutto il mondo.

Careful packaging selection
Over 30 years of experience ensure durable packaging and optimized space usage for worldwide shipping.

4. Etichettatura personalizzata
Ogni collo è etichettato con tutte le informazioni necessarie, incluso il posizionamento in cantiere.

Personalized labels
Each package is labeled with all relevant information, including its placement on site.

5. Qualità & Tracciabilità
Tracciabilità del prodotto in ogni fase produttiva e gestione documentale disponibile tramite il portale dedicato.

Quality & Traceability
Product traceability at every stage of production and document management available through the dedicated portal.

6. Assistenza & gestione imprevisti
Dopo accurati collaudi, forniamo formazione agli installatori in loco o da remoto e restiamo disponibili per supporto in caso di imprevisti in cantiere.

Support & On-Site Issue Management
Following thorough testing, we provide installer training on-site or remotely remaining available to offer support for any on-site issues.
