Lens Inspiration

The perfect optics of pure crystal.

Light refracted through a lens is the fundamental principle of optics. Here, two lenses harmoniously encapsulate their interior source, playing a symphony of lights. Classic clear crystal is offset by a single color that highlights its refraction. A hypnotic design, asking only unique composition and arrangement.

Handmade glass attributes

The Lens Collection is made by our in-house developed, pressed glass technology. Any small bubbles, non-melts and irregularities in the glass are both proof and a characteristic feature of this unique glassmaking process.

The glass parts of Lens are hand-painted, so the intensity of color may vary slightly.
