Handmade glass attributes

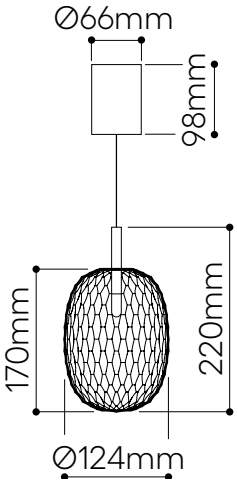

All Bomma products are hand-made from mouth-blown lead-free crystal. Therefore any small bubbles and irregularities in the glass are both a proof and a characteristic feature of this traditional craft.

The Metamorphosis Collection is produced in three colors, simply referred to as amber, smoke and clear. The clear version is made from pure crystal glass, while cigar and amber are produced from solid-color crystal. Each piece is original, thanks to the hand-cutting process. The clear and amber versions are cut using a diamond pattern, cigar is decorated with a curved geometric design. Being hand-made, the individual products can slightly differ in tone, color intensity or cut.
