Umbra Inspiration

There is no shadow without light

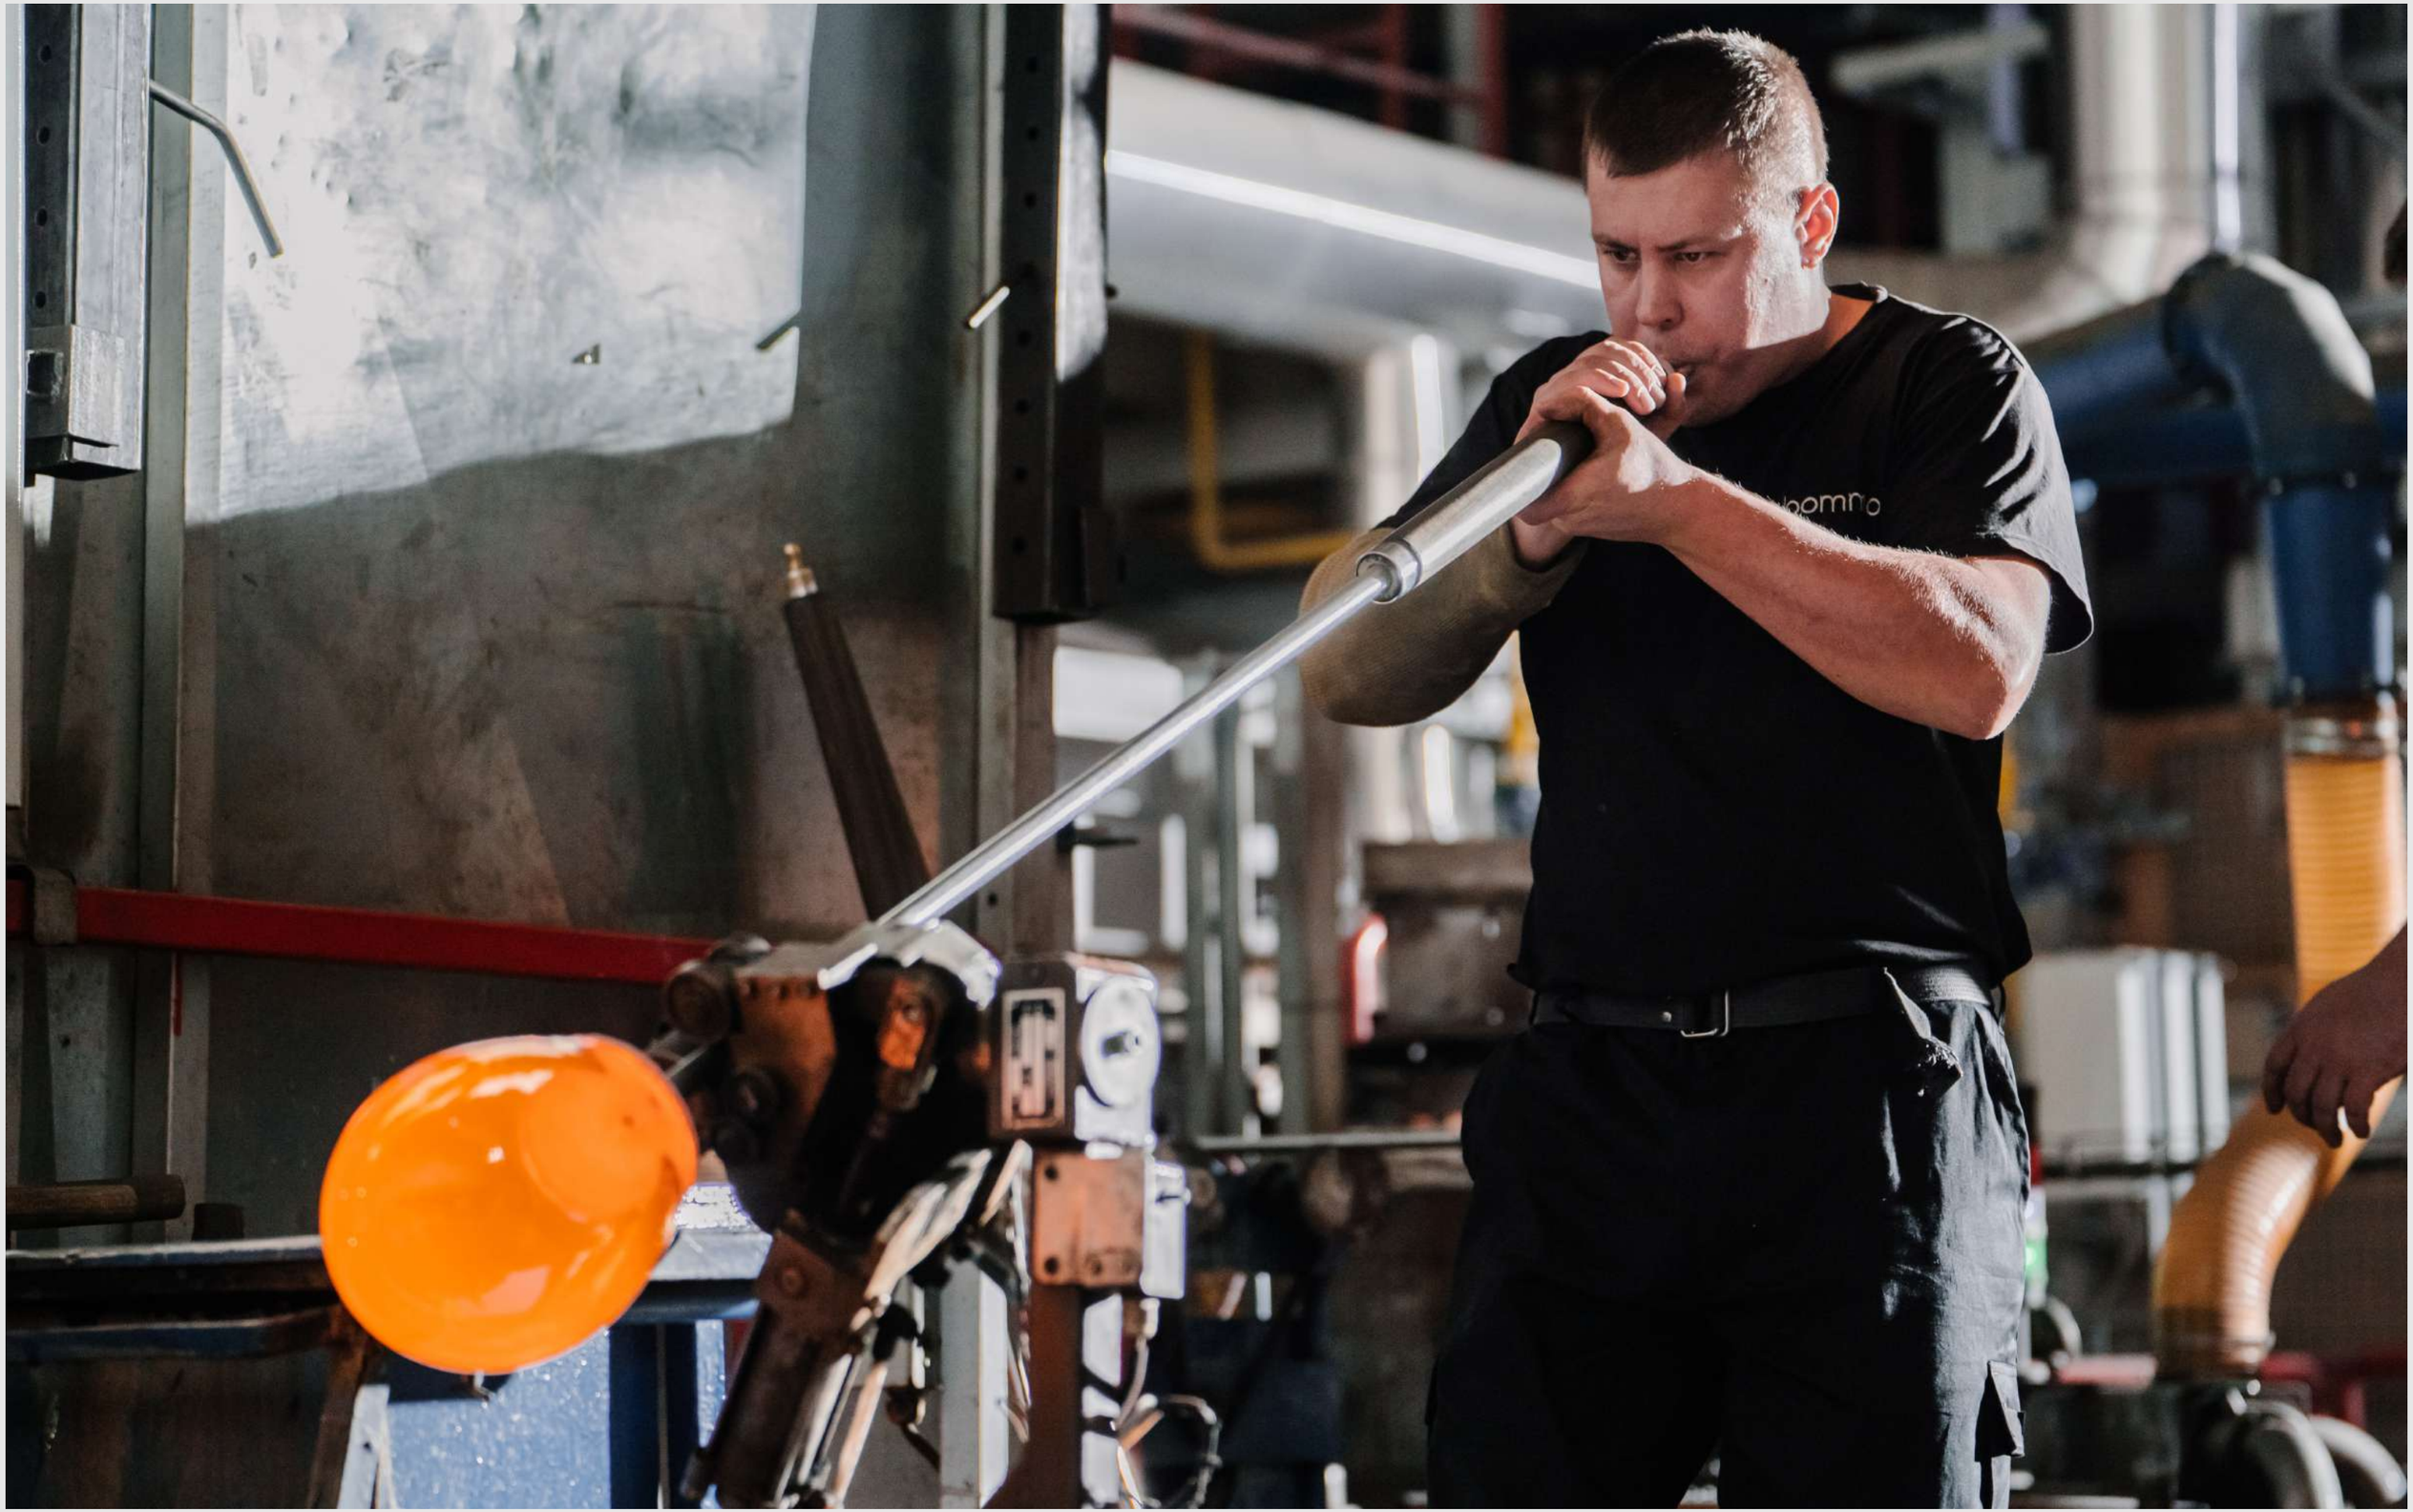

Inspired by the relationship between geometric objects and their shadows, the Umbra collection features elegant pendants in sophisticated detail. Its metal plate derives from the perfectly elliptical shadow cast by a side-lit ball, mirroring the colorful mouth-blown crystal piece.

Handmade glass attributes

All Bomma products are hand-made from mouth-blown lead-free crystal. Therefore any small bubbles, non-melts and irregularities in the glass are both proof and a characteristic feature of this traditional craft.

The Umbra Collection is made by underlying colored glass technology. Thanks to the manual process of blowing underlay glass, each piece is an original. Individual products may vary slightly in intensity, hue or even color. This is an accompanying characteristic of the traditional underlay glass technology.
