PRODUCT INFORMATION SHEET

BROKIS

Name MONA SMALL WALL

Type wall lamp

ID PC969

Description

The Mona collection is based on the concept of penetrating forms. The light source boldly traverses the ample volume of smooth handblown glass to reveal the thrilling tension inherent in the design. The collection's essence, however, lies in its unconventional construction and refined combination of materials. It also boasts dimmable tubular LED light sources, developed by BROKIS, each with a different colour temperature. The entire Mona family has been technologically improved with innovative connectors and the replacement of the wood components with metal ones. These improvements make it easier to change out the light source and clean the lights. The wall variant is dimmable via an integrated dimmer in the lower part of the metal fixture, and the table variant offers touch dimming. The Mona Small collection includes wall and tables lights of the smallest proportions compared with the other Mona collections.

Technical description

Combined craftsmanship / hand-blown glass in combination with metal body. The craftsmanship applied in production follows in the centuries-old tradition and experience of master glassmakers. The precision crafting of hand-blown glass instills distinctive, enduring character and outstanding quality in all Brokis products. The glass shades are formed from multiple layers of molten glass, each of which is scrutinized by the master glassmaker prior to being blown into the mold. Up to 70% of the resulting quality is achieved in this stage of production.
