PRODUCT INFORMATION SHEET

BROKIS

Name	MUFFINS WOOD 01
Type	table lamp, floor lamp
ID	PC849

Description

The timeless Muffins collection represents an extraordinary lighting experience. Since its market debut, it has taken on an iconic status and become a symbol of the BROKIS brand. The sublimity of the design lies in the masterful combination of delicately contoured glass and solid wood. The lights, featuring a bllowing glass shade set in a handcrafted wood base together with a naked filament bulb, breathe new life into any space and elicit a festive ambience. The collection offers multiple shape and size variants as well as a broad palette of glass colours and woods. MUFFINS 15-YEAR ANNIVERSARY In 2025, Muffins celebrates its fifteenth anniversary. To mark the occasion, BROKIS has created a special edition, selecting a singular material that underscores the timelessness and distinctive character of this iconic collection: Italian travertine. Used in architecture from ancient Roman amphitheatres to modern landmarks, this rare stone enriches Muffins with its unmistakable structure of subtle pores and strata and with warm, earthy tones. It forms a refined yet natural counterpart to the delicate contours of handblown glass and lends the collection a new aesthetic dimension. Each handmade light is given the utmost attention, and the careful choice of premium, environmentally responsible materials plays a central role. The precise combination of travertine and multilayer glass, the product of centuries of tradition and the experience of master glassmakers, pays dignified tribute to this jubilee edition. Expert work with travertine imparts the entire collection with a sophisticated character and ensures that every piece is truly unique. The special edition applies to Muffins 01 (PC849), Muffins 02 (PC850) only and Muffins 04 (PC853) only.

Technical description

The craftsmanship applied in production follows in the centuries-old tradition and experience of master glassmakers. The precision crafting of hand-blown glass instills distinctive, enduring character and outstanding quality in all Brokis products. The glass shades are formed from multiple layers of molten glass, each of which is scrutinized by the master glassmaker prior to being blown into the mold. Up to 70% of the resulting quality is achieved in this stage of production. No less attention to detail is paid in handcrafting the wooden elements of the light. Each piece is individually processed by the artisan in a series of strictly observed production stages. We take special care in selecting quality fine wood and ecologically friendly materials to treat it with.

Glass Colour

transparent glass	A	CGC23
smoke grey - transparent glass	A	CGC516
