PRODUCT INFORMATION SHEET

BROKIS

Name	NIGHT BIRDS MINI PENDANT
Type	pendent lamp
ID	PC1385
Description	The Night Birds family of lights is growing with the arrival of Night Birds MINI, employing a smaller format to deliver the same magic of freedom and elegance as their larger predecessors. The compact size is perfect for seamless integration into interiors with lower ceilings or other spaces requiring a more compact lighting solution. Night Birds MINI are at their most impressive when assembled in large flocks. A striking richness in depth can be achieved in skyscapes consisting of MINI in combination with the original larger Night Birds. The minimalist LED light source and precisely crafted anodized aluminium fixtures remain true to the clean lines and subtle aesthetic of the greater family. The handcrafted glass, which undergoes a meticulous process of melting and bending, resulting in delicate variations in wing shape and distinctive coloration, means that no two lights are identical. Available in white, dark (nearly black), and BROKISGLASS variants, Night Birds MINI offer diverse options to suit various interior concepts. At the same time, the collection can be ordered in all available BROKISGLASS colour variants. Whether installed as a solitaire from a single ceiling canopy or in large sets, their remarkable versatility makes them perfect for illuminating a variety of spaces, from intimate dining areas to grand conference rooms. With their compact size and easy installation, Night Birds MINI are an ideal solution for modern interiors demanding a perfect blend of elegance and functionality.
Technical description	The technologies applied in the Night Birds MINI collection are based on the principles of recycling, sustainability, and eco-friendly production. The base material used in making the lights is the waste glass generated in the production of other BROKIS collections. The recycled glass material is subjected to several stages of processing combining traditional glassmaking techniques (hand grinding, sandblasting) with modern ones (melt molding, waterjet cutting, mold shaping) and resulting in a unique product that embodies both tradition and modernity. Each piece is an unrepeatable original with its own story.

Glass Colour

grey - triplex opal BROKISGLASS matte	C	CGC3010
smoke brown BROKISGLASS matte	A	CGC3135
light blue - triplex opal BROKISGLASS matte	C	CGC3151
