BROKIS

Name SHADOWS SET RECTANGULAR CANOPY LARGE

Type pendent lamp

ID PC921

Description

The Shadows collection is a take on the famed, timeless lights found in French ateliers, and its typology pays tribute to that legacy. The combination of handblown glass, handcrafted wood, and classic shaping has given rise to a light of ageless elegance. The collection comprises four different suspension lights, as striking alone as they are in sets, characterized by a handblown glass shade set upon on a handcrafted wooden body. The clean contours and finish are accentuated by the concealed light source. The Shadows collection is special not only for its wide spectrum of glass colour options, surface finishes, and types of wood but also because the lights can be combined into sets according to customer requirements. They are intended for interiors and, thanks to multiple combination possibilities, are well suited to a broad range of installations. Shadows have special integrated connectors developed by BROKIS to facilitate installation and cleaning.

Technical description

The craftsmanship applied in production follows in the centuries-old tradition and experience of master glassmakers. The precision crafting of hand-blown glass instills distinctive, enduring character and outstanding quality in all BROKIS products. The glass shades are formed from multiple layers of molten glass, each of which is scrutinized by the master glassmaker prior to being blown into the mold. Up to 70% of the resulting quality is achieved in this stage of production. No less attention to detail is paid in handcrafting the wooden elements of the light. Each piece is individually processed by the artisan in a series of strictly observed production stages. We take special care in selecting quality fine wood and ecologically friendly materials to treat it with.
