

# NINFA

Design Andrea Lucatello

Le Ninfe antiche divinità legate alla natura danno il nome a questa nuova madia. Ninfa si contraddistingue per le sue forme arrotondate e per l'assenza di spigoli. I pannelli che formano le superfici esterne avvolgono come un manto la struttura, lasciando scoperto un vano, utile come espositore per libri ed oggetti.

*The ancient nymphs, deities linked to nature, give their name to this new sideboard. "Ninfa" is distinguished by its rounded shapes and absence of edges. The panels that form the outer surfaces envelop the structure like a cloak, leaving a compartment exposed, useful as a display for books and objects.*
